

I would like to express my concern r/t LPFM stations expanding at the expense of eliminating KLOVE from the FM radio waves. I am a committed supporter of KLOVE. The thought that the FCC is taking such actions supports my thoughts that FCC does not operate with a customer focus mission. Christians are asked to give up alot. We are asked not to express ourselves because what we might say may offend someone who is a nonbeliever. The time has come for us to break our silence. I request your consideration to leave KLOVE on the air. It is our right to have a voice. Yes, even over the radio.

I pray, God will lead your leaders to do the right thing. I am confident your creativity will find alternatives to promote a win- win solution. Thank You Eartha Powell
